He said that tecorder had been induced to believe that oughton had led an upright life-perhaps a "simple Christian life" like Fellows-since he had been State Prison for burglary. A "number of eputable witnesses" had certified to this, but who they were Mr. Welsh does not say. He was perps engaged in leading this upright life the night and Robertson were caught by the de "jimmies" and other burglars' tools, ready to break into a dwelling-house in East Thir-

How much of this "Big Mike" spent in effecting Houghton's release has not yet been made public. If Mr. Weish has given all the reasons which moved the Recorder to suspend sentence on Houghton he has left the chief criminal judge of New-York in a pitlable shape. All, really, that the Recorder or his friends can say is that he left this convict bose to continue his calling of burglary to please District-Attorney Fellows. Fellows on his part, was accommodating "Big Mike" Murray. It would be interesting now if "Big Mike" would step forward and say how much the accommodation cost him. How much of this "Big Mike

WILL SMYTH COME UP TO GOFF'S LEVEL John W. Goff has put himself on record as declaring that if elected Recorder he would neither seek nor accept references. Here is something seek nor accept references, here is something which Recorder Smyth might say something about, even if he disdains to tell why he has left a lot of criminals running at large. As Recorder he receives the handsome salary of \$12,000 a year. In addition, he draws \$2,000 a year "office rent." under an old custom established in the robber days of Tweed, also \$1,000 a year for his services as a member of the Rent of Sinking Fund Comays of Tweed, also \$1.69 a year for his services a member of the Hoard of Sinking Fund Comissioners, and another \$1.06 a year as a member the Board for the Revision and Correction of Assements. This makes \$15.00 a year which he is cripved for fifteen years or more. Yet the ecorder accepts references from the other judges the various courts of record, and transacts a twate law husiness at his office, at No. 38 Park 20, and to be worth to him from \$1.000 to \$20.000 |

ante-room after sending in their cards. This is particularly so if his visitors are suspected of membership in the City Club, the City Reform Club, any of the Good Government clubs, or are thought to be in sympathy with any of the organizations which favor hones: municipal administration and think it is time to remove the clutch of Tammany Hall from the city government.

Not so is it with any of the notorious characters which Tammany Hall has made conspicuous in this city. If Charles "Silver Dollar" Smith, Alderman; or Timorthy "Dry Dollar" Smith, Smith, Alderman; or Timorthy "Dry Dollar" Smith, State Sensitive, or ex-Warden "Fatty" Walsh, or any like majodrous individual comes to see him Fellows is all smiles and obsequiousness. It isn't necessary for "Silver Dollar," or "Dry Dollar," or "Tom," or "Tom," or "Tom," or "Tom," or "Paddy" or "Fatty" to send in his card. Each of those is a privileged character at the District-Attorney's office, and cam walk right into Colonel Fellow's private office without the formalities required of men who weer clean linen and are not recking with the fumes of bad liquor and tobacco. Suilivan marched into Fellow's office on Monday, accepting the salaams of the District-Attorney's lackeys as he passed them.

"My dear boy, what can I do for you?" exclaimed Colonel Fellows rushing up to meet "Dry Dollar."

The latter afterward explained that he went to be the District-Attorney "because a fren" of his was in trouble about a matter."

"But he's acquitted already, "added "Tim."

"Dry Dollar" Sullivan swelled Fellows's majority by hearly 2000 fraudulent votes last year, cast for Tamdany tiddet. These fraudulent votes will not be polled this year.

JOHN W. GOFF IN GOOD SPIRITS. THE CANDIDATE FOR RECORDER BELIEVES THAT

SMYTH IS CONTEMPTUOUS. in any to be beaten at the polls next week," he said A SUPERB COLLEGE SITE, the most gratifying features of the situation is the certainty of an approximately honest election Tammany will not thrive long if the registration and counting are kept straight. There is one danger that I hope will not be lost sight of by the police, the Good Government, Committee of Seventy and Republican managers, and that is the probability that repeating on a large scale will be attempted in some of the uptown districts, particularly the XIIth. It has been going on there for years. Floaters and tramps from Blackwell's Island are, through some mysterious manner best known to Tammany Hall, colonized on the East Side. Some of them are placed on the city payrolls at nominal wages in order to give them a semblance of residence in the city, and on Election Day, as "The Brooklyn Eagle" said of McKane's work, they murder popular government. According to Justice Barrett's decision, no one is entitled to vote from Blackwell's Island, unless actually living there. I have never seen a time when people on all sides were so worked up over the eriminal mismanagement of our maincipal affairs as they are at present. I believe Tammany will be defeated." and counting are kept straight.

EX-PREMIER MERCIER DEAD

He was at first a Conservative in his political views, following the acknowledged leader of the French Canadian people

Mercier entered on political life in 1872, when he was elected to the Dominion Parliament at Ottawa. He held his seat in that body for only two he succeeded as leader of the Liberal or Rouge party. This party was then apparently doomed to long years of hopeless opposition. The government of the Conservatives or Rieus seemed

ing, he united his own Rouge followers with disaffected Bleus under the name of the Parti National. "Cease your fratricidal strife," he im

most of whom had belonged to the Castor or Ultramontane wing of the Bleu party. His task was to harmonize these diverse elements. It was now that he blossomed out as an humble and faithful son of the Church. He did not scrupie, however, to oppose the will of archbishop or cardinal who political expediency seemed to warrant it. Naturally of liberal tideas and free from bigory, he aroused in turn the opposition of the Ultramontanes by acts of liberality to the Protestant minority (which had one representative in his Cabinets and the fury of the Orange order and the aggressively Protestant among his English-speaking countrymen by concessions to the Roman Catholic Church.

Perhaps the most stirring occurrence in his brief lease of power was the passage of the Jesuit Estates act, by which a long-standing dispute was settled to the satisfaction of the hierarchy and to that of many reasoning and influential Protestants, but in such a manner as to inflame the Orangemen of Ontario and nearly to cause the disruption of the Confederation in the unsuccessful attempt to bring about a Federal veto of the act.

While Mercier was Premier he and some of his manner more osteniations than the moderate salaries of Canadian public officers would seem to justify. After the electors had a second time returned him to power, this ostentation culminated in a triumphal tour through France and Belgium.

a handsome old grove of trees, which the college owns and will inclose with an iron fonce.

President Seth Low, in his report this year, declares that the new site, "by general consent, is unsurpassed in location by that of any university in the world. Any one pixeling a building there may be confident of a memorial that will be before the eyes of the people of the United States almost more than any college building in the land." Near by are the Grant monument and the new Cathedral of St. John the Divine. To complete the payment for the site it was necessary to borrow \$250,000, but this debt, the president says, will be liquidated shortly by legacies due to the college and from other funds. When the college took possession of the new site at Forty-minth-st, and Madison-ave, sells promptly for as much as the trustees thisk it is worth, it will bring enough to pay off this mortgase, and to meet the expenses of moving and litting up the few grounds in temporary fashion for the occupancy of the college. The move is expected to be made by 1838.
